

MERC

Short Course

OCTOBER 3RD, 2019
TIMMINS, ONTARIO

AT THE NORTHEASTERN
ONTARIO MINES & MINERALS
SYMPOSIUM

SHORT COURSE PROGRAM

9:00—9:40am	Ross Sherlock; Metal Earth Update and Insights on Controls of Gold Mineralization from the Larder Lake Transect
9:40—10:20am	Saeid Cheraghi; Metal Earth Seismic Results and Insights on Crustal Architecture
10:20—10:40am	Break
10:40—11:20am	Rasmus Haugaard; New Geological and Geophysical implications on the Architecture of the Swayze and Matheson Greenstone Belts
11:20—12:00pm	Xiaohui Zhou; Tectonic Evolution of the Southern Abitibi Subprovince: New Insights from Integration of Geological and Geophysical Data along the Malartic and Chicobi Transects
12:00—1:00pm	Lunch
1:00—1:40pm	Evan Hastie; Gold Mobility and Geochemistry of Gold Deposits: Insights from the Swayze Greenstone Belt and Large Gold Camps
1:40—2:20pm	John Ayer; Tectonic Setting and Timing of gold in the Superior Province
2:20—2:40pm	Break
2:40—3:20pm	Bruno Lafrance; Structural Controls on Gold Mineralization
3:20—3:40pm	Summary and Discussion
